

Samsung Galaxy Centura Teardown

Tearing down the Samsung Galaxy Centura, a Tracfone / Straight Talk exclusive.

Written By: Brooks Robinson

INTRODUCTION

Tearing down the Samsung Galaxy Centura, a Tracfone / Straight Talk exclusive.

Step 1 — Samsung Galaxy Centura Teardown

- This is the Samsung Galaxy Centura, a low-end smartphone made for the Tracfone/Straight Talk networks.

Step 2

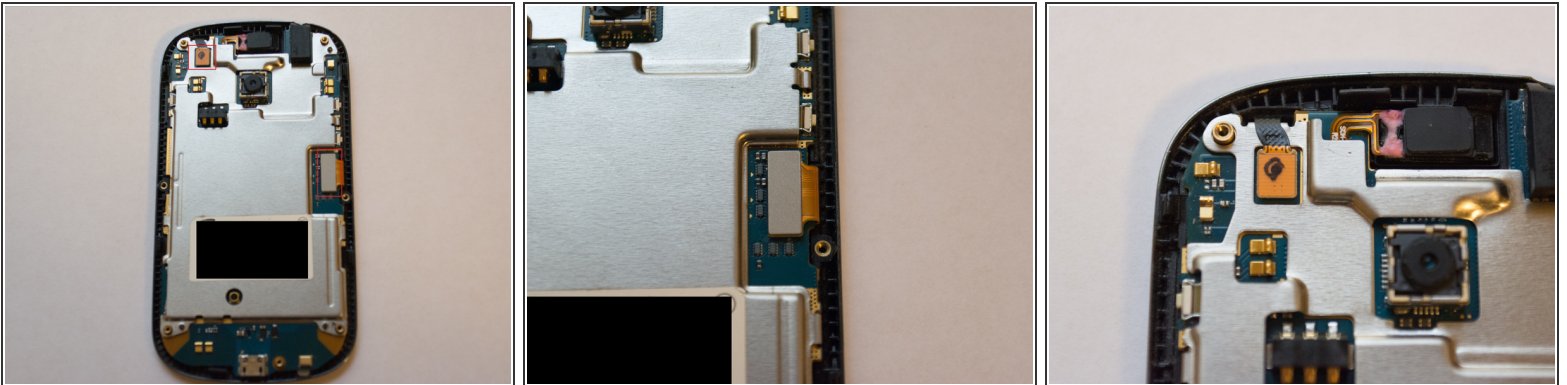

- Remove the battery, and then remove the 7 Phillips screws surrounding the outer casing.

Step 3

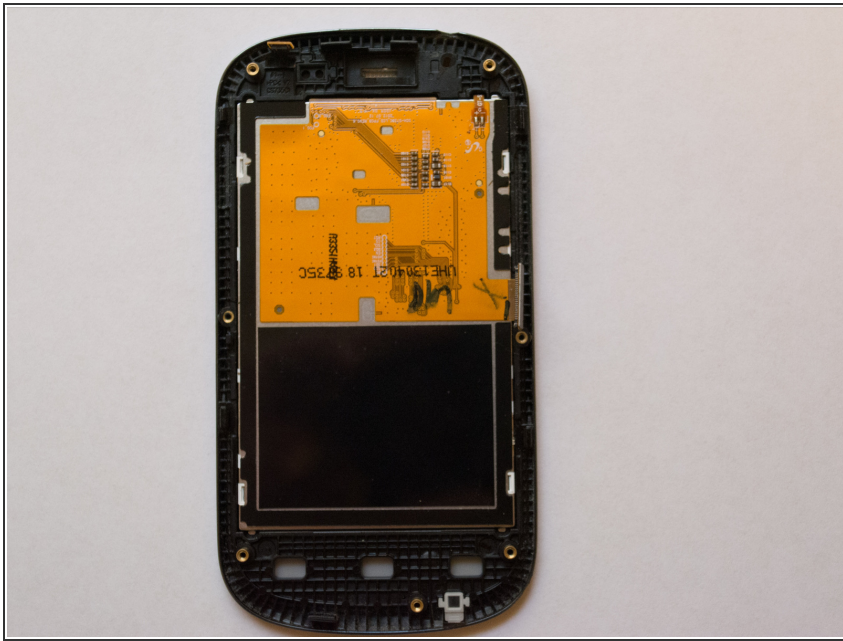

- Pop the 4 clips on both the left and right side of the phone. The outer casing should come right off by pulling.
- This antenna can be removed with a spudger or screwdriver.
- This is the speaker assembly (with more antennas!)

Step 4

- Disconnect the two flex cables with a spudger or plastic opening tool.

Step 5

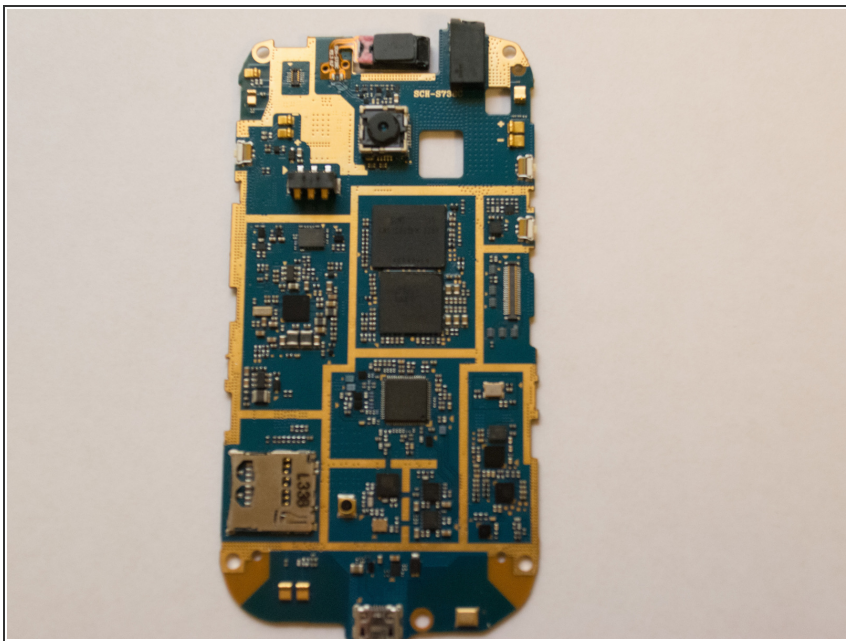

- Now the display assembly is free.

Step 6

- Remove the 3 Phillips screws on the back of the motherboard to remove the EMI shielding.

Step 7

- Congrats! You've torn down the Samsung Galaxy Centura.

To reassemble your device, follow these instructions in reverse order.
